

## September 23, 2021 JOHSC Meeting Summary

---

### Dashboard-Patrick

- Increase in Covid cases.
- 3 Fitness related injuries.
- Plumbed eye wash stations that had been installed in some station **should not be used as they have not been properly maintained**. A Communication has come out to members to ensure that they are not being used until they can be properly decommissioned.
- There were a few injuries from annual evaluations this year. Injuries were evaluated and Training and Field Trainers adapted instruction and scenarios to help prevent further injuries.

---

### Terms of Reference

- On hold.

---

### Equipment Tracking and Maintenance Process

- The majority of equipment has been entered into the M4 System and Amandeep is going to follow-up with the JOHSC next meeting as to where things are currently sitting.

---

### Radio Assignments

- Radios have been removed from the High-rise but have yet to be redistributed to new apparatus.
- All boat tows should now have issued radios. ADC Mark Forbes from FRS is going to follow-up with Chief Turik on what will be happening with additional radios and those apparatus without portable radios assigned.

---

### Boat Tracking (Ability for Dispatch and Officers to see where boats are at when on the water)

- Trial starting with an APP being installed on Boat 6 Sonim phone and mount being installed on boat pedestal.

- If successful, mounts and APP will be added to the other boats and their phones.

---

## Station #14 Reno/Living Conditions

- Amandeep is going to look into power outage issue and a lack of tones being received if/when power goes out.
  - “Heart Beat” that dispatch periodically receives to ensure that the Locution system at each station is online and working correctly should have been received by dispatch to make them aware of the outage. He is going to look into why this may not have happened.

---

## Covid Measures FTOC (Fire Tactical Operations Centre)

- FTOC (Fire Tactical Operations Centre) has not been activated again as the current impact of Covid on our staffing levels has not created a situation that demands it.
- If Members are booking off due to Covid, or Covid like symptoms, please let Health and Safety know as soon as possible so proper contact tracing and station cleaning can be implemented.
  - Cleaning needs to be done within 72 hours.

---

## Anti-Fog Safety Glasses

- Issue was raised as fogging of glasses creates a safety issue for members and can result in non-compliance due to impairment of vision.
- Patrick informed the JOHSC that there will be a new mask distributed to stations shortly that they hope will address this problem.
- ADC Cowan is working on anti-fog wipes for glasses as well.
- Item will be closed and removed from agenda.
